

Questions about your lung cancer diagnosis? We can help.

A lung cancer diagnosis can be overwhelming. LUNGevity Foundation provides tools to help patients, survivors, and caregivers better understand and navigate the disease.

Lung Cancer Support

Expert Blogs & Videos include clear discussions about the latest developments in research and what they mean for patients.

Online Survivor & Caregiver Resource Centers help patients live well with lung cancer and provide tip sheets with questions for visits with one's medical team.

Peer-to-Peer Support

LifeLine matches patients and caregivers to mentors who have had similar experiences for personalized one-on-one support.

Clinical Trial Ambassadors are volunteers available to offer information about their personal experiences with clinical trials to fellow lung cancer patients.

Lung Cancer Support Community message boards provide patients and caregivers with peer-to-peer support and information.

LUNGevity Survivorship Conferences are designed specifically for patients, survivors, and caregivers to hear from medical experts, inspirational speakers, and each other. These unique meetings, both in-person and virtual, build communities of hope and support for people at all stages of a lung cancer diagnosis.

The Lung Cancer HELPLine (844-360-5864) offers toll-free, personalized support for patients & caregivers at any time along their lung cancer journey. Our oncology social workers are fluent in both English and Spanish and are available to help manage emotional, financial, and support challenges.

About LUNGevity Foundation

LUNGevity Foundation is firmly committed to making an immediate impact on increasing the quality of life and survivorship of people with lung cancer by accelerating research into early detection and more effective treatments, as well as by providing community, support, and education for all those affected by the disease. Our vision is a world where no one dies of lung cancer. For more information about LUNGevity Foundation, please visit lungevity.org.

Lung Cancer Education

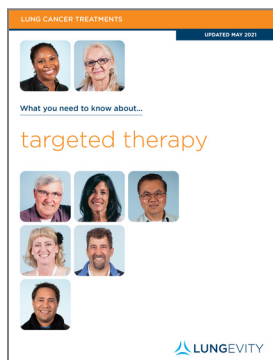

Lung Cancer 101 Website

- How Lung Cancer Develops
- Signs & Symptoms
- Lung Cancer Staging
- Diagnosing Lung Cancer
- Questions to Ask Your Doctor
